

**Mor-Green®****7% Iron Chelate**

For use on iron-deficient soils, Mor-Green is a preventive and cure of iron chlorosis in lawns, trees and flowering shrubs. Unlike many irons, Plant Marvel's Mor-Green is 100 percent water-soluble, allowing extremely rapid green-up when applied as a soil treatment or foliar spray. Mor-Green improves disease resistance. Compatible with most fungicide and herbicide sprays and other chemicals, Mor-Green is an EDTA iron chelate (technical sodium ferric ethylenediamine triacetate) and is formulated in a highly concentrated form for maximum economy.

**Guaranteed Analysis**

<b>Mor-Green</b>	<b>Percent</b>
Iron (Fe) .....	7.00%
10.00% as Fe <sub>2</sub> O <sub>5</sub>	
Technical (Fe) Ethylenediamine Triacetate	

**Directions**

Mor-Green dissolves completely in tap or well water. It will dissolve almost instantly in hot water. Its ability to stay in solution without precipitation makes it ideal for applying through all injector systems and even the finest misting nozzles. Foliar: Because of its complete and high solubility, this formula is ideal as a foliar feed.

**Soil Treatment:**

Mor-Green should be distributed uniformly over the surface of the treated area and thoroughly watered in to a depth of six inches into the soil. To obtain even distribution, dissolve in water and spray or sprinkle on soil, or, apply dry after mixing with a suitable quantity of sand, soil or other material to cover area. Standard dilution rate is one pound to 100 gals. of water.

**Golf Greens and Lawn**

**Grasses:** 1 lb. of Mor-Green in 100 gals. of water treats 4,000 sq. ft. Repeat monthly throughout the season, using eight ounces per 50 gals. of water alone, or, in combination with fungicide or fertilizer, per 4,000 sq. ft. Dry form application should be at the rate of 20 lbs. per acre.

**Nursery and Green-**

**house:** Dissolve 1/4 pound in 100 gals. of water for each 400 sq. ft. of bench area or bed. For dry application, mix 1 lb. with enough sand or soil to cover 1,600 sq. ft. of area and water in thoroughly.

**Foliar Spray:** Dissolve one pound in 100 gals. of water. Thoroughly wet the foliage of the plants treated.
